Staff Portal

Support your staff to deliver your strategic priorities

Take the work out of engaging with staff individually

- Segment and profile your workforce so that each communication is personalised and relevant

Build relationships with new recruits even before their induction

- Automate how you send messages, surveys, sitemaps and other information so that inductions and their first days with you are as smooth and productive as possible

Automate routine HR processes

- Manage and streamline recurring communications such as junior doctor inductions and new starter communications
- Let Staff Connect send appraisal and professional registration reminders
- Tailor messages based on interests, professional group, sites or services people work in

Set and manage mailing preferences

- Documents, links, self care info and messages sent straight to my preferred inbox

Confidently message staff in real time

- Communicate major emergencies or business continuity issues to all staff in a format and on devices that you know your staff will read

Deploy a personal 'team brief'

- Staff Connect will search by keyword, tailoring news to each member of staff
- Send new right to people's preferred inbox daily, weekly or once a fortnight

Your people can stay up to date with policy and job alerts

- Tell people what is expected of them through effective goal cascading
- Make sure the most up to date policies & procedures are available a the touch of a button
- Automatic alerts when policies, procedures or guidelines are updated
- Let people sign up for new job alerts to read or share

Personalised surveys and insight reports

- Anonymous feedback via my preferred medium
- Boost response rates with SMS, email, online or in-app reminders
- Questionnaires that unfold dynamically as they are answered

Show your staff that you value their time and are serious about listening to their views and keeping them informed. The Staff Portal is a precision tool, targeting communications to the right staff groups at the right time.
